

Let's Accelerate Digital Transformation

February 2020

Paul Blackwell

You Face Pressure From Many Sources

**Technology and
process optimization**

New technologies

Growth

Outsourcing

Market saturation

Customer expectations

**Compliance
and regulation**

Cost pressure

Yet Your Core Priorities Stay the Same

**Increase revenue
& lower costs**

**Improve customer
satisfaction**

**Increase employee
engagement**

**Reduce compliance
risk**

Previous Eras of Technological Disruption

Where would
data centers
be without

Mainframe

Where would the
business world
be without

PC

Where would
software
be without

GUI

Where would
Amazon
be without

Internet

Where would
Uber
be without

Mobile

Where would
Salesforce
be without

Cloud

Automation is the Next Disruption of Work

“Coming over the horizon is a new wave of opportunity related to the use of robotics, machine learning, and AI. **Companies that deploy automation technologies can realize substantial performance gains and take the lead in their industries,** even as their efforts contribute to economy-level increases in productivity.”

McKinsey Global Institute
2017

What Can Software Robots Do?

Here are some of the tasks that can be easily handed over to the Robots

Log in to any application

Connect to system APIs

Move files and folders

Extract content from documents, PDFs, emails and forms

Read and write to databases

Open emails and attachments

Scrape data from the web

Make calculations

Look at That Robot Go!

Anything That Can Be Automated, Will Be

Finance

- Process-to-pay
- Order-to-cash
- Record-to-report

Supply Chain

- Inventory management
- Demand & supply
- Planning
- Invoice & contract management

IT

- Server & app monitoring
- Routine maintenance & monitoring

HR

- Payroll
- Onboarding & offboarding
- Benefits administration

Customer Services

- Address change
- Password reset
- Payments
- Scheduling appointments
- Order modifications

Automation Now a C-Level Priority

91% of surveyed organizations are using automation technologies

73% are 'very' or 'entirely' satisfied with the returns from automation to date

For **84%** of companies, automation is a C-level executive's responsibility

Banking, Financial Services, and Insurance

Telecom, Media, and Entertainment

Retail and Consumer Goods

Industrial and High-Tech

Energy

Health Care and Life Sciences

Services

Federal / Public Sector

World's Largest Hybrid RPA Implementation

2020

200+

Operations
automated

**Implementation
time:**

5 months

5 SIs

Accenture, EY, Deloitte,
IBM, and PwC

Compliance/risk operations

Support branch operations

Routine operation center processes

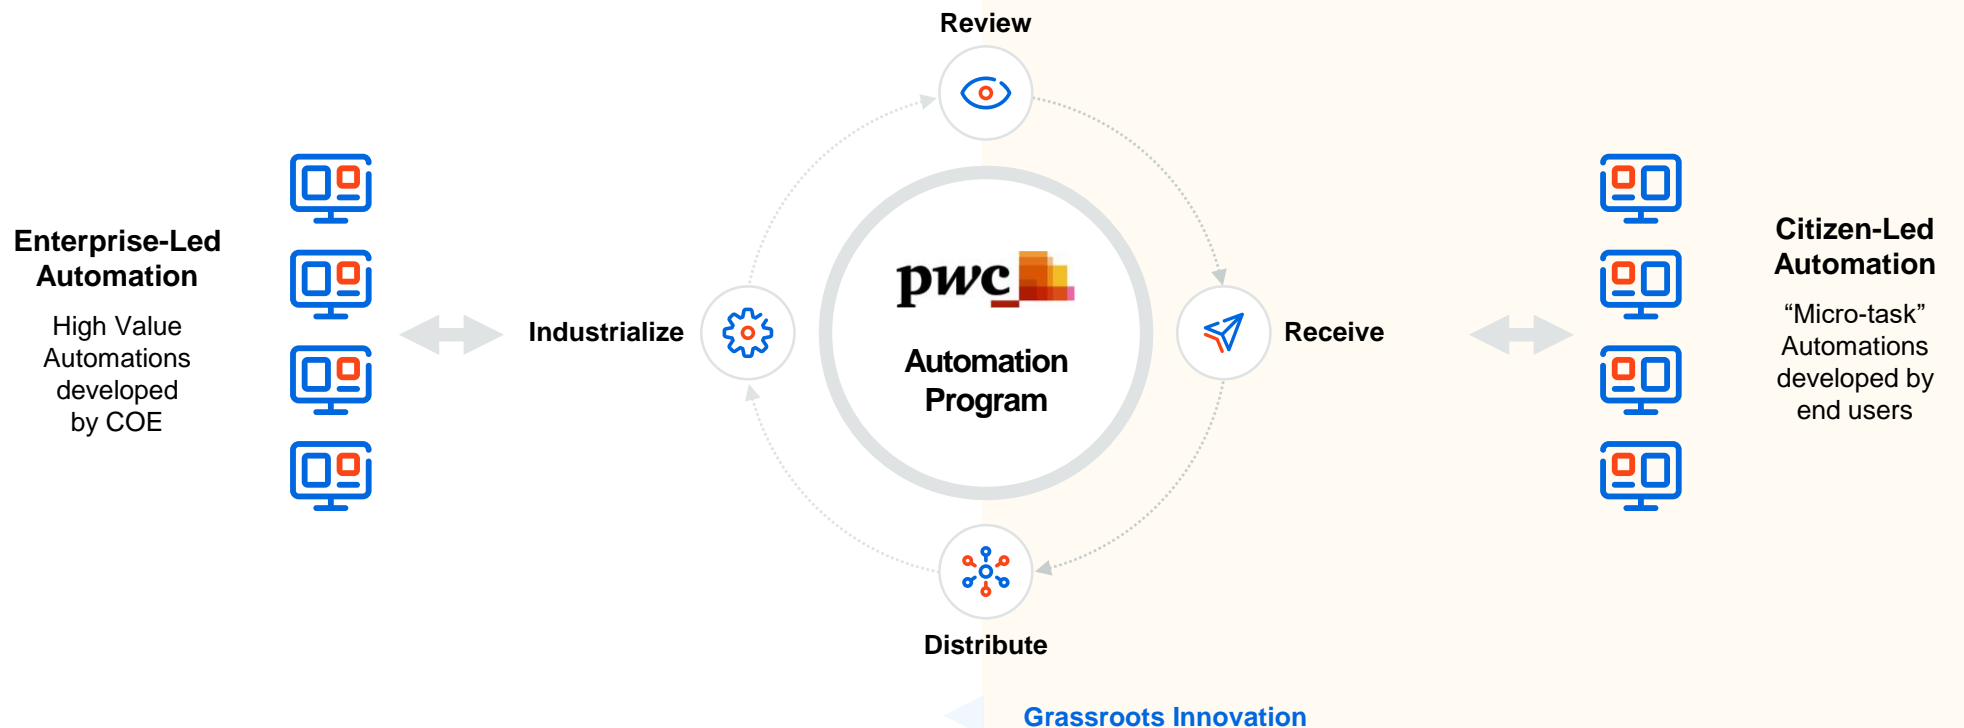

Other high-volume routine operations within
Headquarter departments

Information-gathering processes used to enhance
sales & planning

PwC Rolls Out the Largest Robot Deployment in History

The program includes thousands of Robots generating new revenue streams and completely transforming PwC's services strategy

Enterprise Level Governance & Standards

A Leader in the July 2019 Gartner Magic Quadrant for Robotic Process Automation Software

UiPath achieves the highest and furthest overall position for its ability to execute and completeness of vision

UiPath believes this signals a tipping point for automation market growth and adoption

Figure 1. Magic Quadrant for Robotic Process Automation Software

Source: Gartner (May 2019)

This graphic was published by Gartner, Inc. as part of a larger research document and should be evaluated in the context of the entire document. The Gartner document is available upon request from UiPath. Gartner does not endorse any vendor, product or service depicted in its research publications, and does not advise technology users to select only those vendors with the highest ratings or other designation. Gartner research publications consist of the opinions of Gartner's research organization and should not be construed as statements of fact. Gartner disclaims all warranties, expressed or implied, with respect to this research, including any warranties of merchantability or fitness for a particular purpose.

A Forrester Wave Leader

“UiPath is a Leader with shared services and ease of bot design.

The platform easily handles attended robots developed by employees as well as unattended robots that can handle large-scale processing.

Customers noted its deployment flexibility.”

Open

Open to Learn, Use, and Share

Open to Learn

- Complimentary **training for all RPA roles** with UiPath Academy
- **Community Forum** where no questions is left unanswered

Open to Use

- **First RPA company to provide a free download** version of the product
- **Large ecosystem of deep integrations** with the technologies you already use and love

Open to Share

- Go! **marketplace** for secure and trusted RPA & AI components
- UiPath Connect open network for RPA developers, partners and you to **collaborate on your projects**

CRM

Microsoft Dynamics

The screenshot displays the Microsoft Dynamics CRM interface for a customer account. It is divided into several sections:

- List of customers:** A table showing a list of customers with columns for Account Number, Account Name, State, and Region. Two customers are listed: ABSS4G45 (A Bike Store, TX, West) and AST900023 (Astonishing bikes, WA, West).
- Customer details:** A form showing fields for Account Name (A Bike Store), Address (5009 Orange Street), Account Number (ABSS4G45), Account Manager (denallix\holly), and Region (West).
- Account manager:** A form showing fields for Account (denallix\holly), First Name (Holly), Last Name (Anderson), Email (holly@denallix.com), Join Date (2/1/2001), Region (West), Average Deal Size (\$32,978.99), and Rating (4 stars).
- Customer contracts:** A table showing a list of contracts with columns for Title and Link To. Three contracts are listed: Customer Contract (A Bike Store Contract.docx), A Bike Store License Agreement (A Bike Store License Agreement.docx), and A Bike Store NDA (A Bike Store NDA.docx).

K2 for Operations – Employee Self Service

The screenshot shows the TechHub Toolbox interface. At the top, there is a header with the TechHub Toolbox logo, notification icons (36, 4), a user profile for Nizar, and a Feedback button. Below the header is a banner with a speech bubble icon and the text: "Out with the old, let's hear from you! Let us know if you would be happy to be contacted to share your thoughts and ideas on the next generation portal." A "Yes! contact me." button is on the right. The main content area starts with a welcome message: "Hello and welcome to the TechHub Toolbox. How can we help you today?". Below this is a "Self Service" section with a blue header. It contains two rows of service tiles: Software, FIL Anywhere, Access, Hardware, Mail, Collaboration in the first row; and Install New Software, My Installed Software, Software Package in the second row. At the bottom is an "Additional Services" section with a blue header and a "Market Data" tile.

Give Business Users a clean simple way to interact with IT across multiple service channels

- Integrate with ServiceNow
- New Software / Apps Requests
- Password / Account Resets
- Hardware Requests
- Schedule Online meetings
- Request MS Team channel
- Request SharePoint site

K2 for Operations – Employee Self Service

K2 for HR

TOP HR PROCESSES

1

EMPLOYEE ONBOARDING AND OFFBOARDING

Simplify your procedures with automated workflows that activate and deactivate user accounts and devices. Online forms capture equipment details, IT access requests, and more.

2

PERFORMANCE REVIEWS

Reduce subjectivity and inconsistency through automated processes that allow managers and employees to set and track performance objectives.

3

PAYROLL PROCESSING

Eliminate errors and make sure your employees are paid on time with solutions that retrieve clock-in and clock-out times and integrate the data into workflows.

4

NEW HIRE APPROVALS AND RECRUITING

Online forms for new hire requests automatically move through workflows for appropriate approvals and prepare for onboarding.

5

POLICY MANAGEMENT

Ease the headache of enforcing and managing company policies by making it easy to ensure compliance, secure critical records and review and update policies as needed.

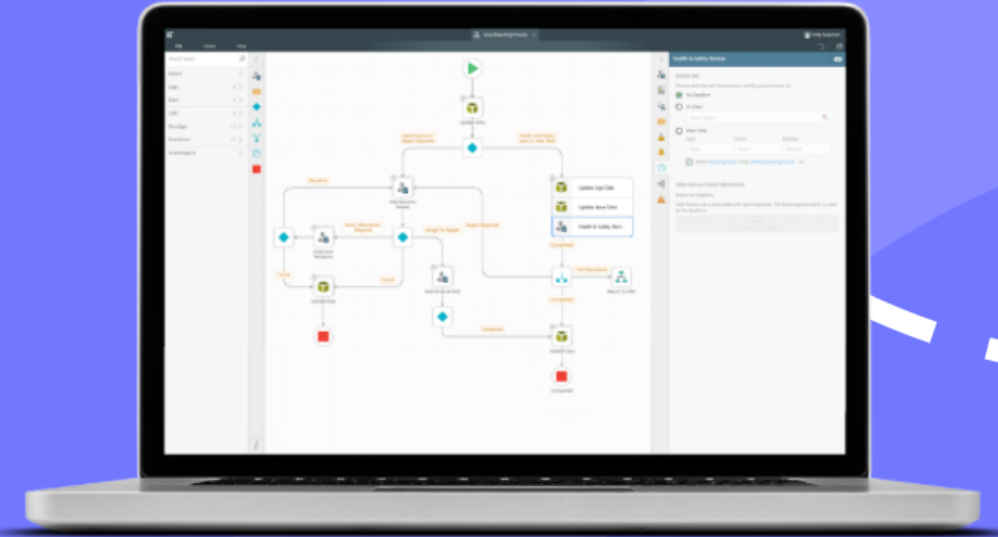

K2 Smart Starters
